
CLEAN AND DISINFECT FOR COVID-19

Checklist of Items to Disinfect:

Slit lamps, including controls and accompanying breath shields, should be disinfected, particularly wherever patients put their hands and face (AAO 2020)

Doorknobs

Floors (at the end of each day)

Light switches, cabinet handles, guest chairs, countertops

Exam chair seat and arms

Phoropter

Occluder, near point cards

Wipe down keyboards and computer mouse with disinfectant wipes

PPE should be disposed of in biohazard bin if known contamination, otherwise put in the trash can
