

The view's better from here.

At Maui Jim, we believe it's not about where you are; it's about the magic that happens when you put on a pair of Maui Jim sunglasses and experience that the view is truly better from behind our lenses.

Maui Jim's patented PolarizedPlus2® lens technology enhances color, definition, and depth perception by using lens treatments to eliminate 99.9% of glare, absorb harmful blue (HEV) light, and block 100% of harmful UVA and UVB rays. Maui Jim is the only premium sunglass brand to earn The Skin Cancer Foundation's Seal of Recommendation as an effective UV filter for the eyes and surrounding skin.
