STAND OUT FROM THE CROWD WITH THESE RESUME TIPS!

Tips for Landing Your Next Associate Job with Confidence

10-30 SECONDS

The amount of time most recruiters look at a resume.

EASY ON THE EYES

An easy-to-read resume with all necessary experience and highlighted skills makes a great first impression.

DITCH THE DISTRACTIONS

Remove anything that can create a conscious or unconscious bias or distraction (personal photos, address, art, etc.).

CHECK FOR ERRORS

Spelling or grammatical errors can cancel out good content. Be sure to have multiple sets of eyes review your work.

EDUCATION COMES FIRST

List your education first, followed by bullets that show you meet minimum qualifications.

THE FINISHING TOUCHES

- Don't be afraid to start on a blank page and format later.
- Choose an attractive and readable font.
- Create a professional email address.
- Save your resume as a PDF (name your files properly).

PREPARE YOUR CV OR RESUME

Highlight your studies, research, projects, and accomplishments during your time in optometry school.

LESS IS NOT ALWAYS MORE

Resumes longer than one page are encouraged! All your relevant experience is used to qualify you for a position.
